Belgrade, July 10, 2012

Attn. Mr. Shusuke TAKEMINE,  
Hyogo Prefectural Institute of Environmental Sciences, 3-1-27,  
Yukihira-cho, Suma-ku, Kobe, 654-0037, Japan

Dear Mr. TAKEMINE,

With this letter I would like to officially invite you in front of Serbian Chemical Society and Faculty of Chemistry to visit University of Belgrade in order to present your research in the field of persistent organic pollutants (POPs) and especially perfluorinated compounds (PFCs). As you are a leading analyst in the area of PFCs in Japan, your presentation will enhance our understanding regarding analysis and monitoring of PFCs in the environment. Also discussion about your experience from Japan and Asia in whole, regarding these contaminants will be more than welcome in the light of global environmental pollution.

Vladimir P. BEŠKOSKI, D.Sc.Biochem.,  
Assistant Professor  
Faculty of Chemistry  
University of Belgrade
